

BIOGEOMETRY

ADVANCED TRAINING

Six-day training of theory and practical
comprising Levels 4,5,6

with Kris Attard
Certified BioGeometry Instructor

AWARENESS

WORKSHOPS

WELCOME TO ADVANCED BIOGEOMETRY!

Advanced BioGeometry is aimed not only at giving you more knowledge and teach you new tools, but at opening new doors of possibility in your work and your life.

Naturally you will be learning new material and powerful new methods at your disposal for evoking harmonisation with the Centering principle.

We also aim to improve your competence with all the core techniques. This is particularly important as this course will make you eligible to apply for training as a BioGeometry Licensed Home Balancing Practitioner, should you wish.

A third objective is instilling that crucial alignment of self which will empower and superimpose all the techniques you apply: true Bio Geometry!

.....
Disclaimer: BioGeometry techniques are not a substitute for professional treatment or consultation. The curriculum or other details of the course can be subject to change without notice.

SOME OF WHAT YOU WILL LEARN IN LEVELS 4, 5, 6

Level
4

REVIEW + NEW BIOGEOMETRY TOOLS

We begin the training with a **detailed review of the fundamental concepts and techniques** from the Foundation Training, including the Physics of Quality in its role in our consciousness and perception of life, Bg16, Neutral pendulum; measuring personal wavelength, assessing affinity, polarity, updates on the BioSignatures, the BG3 Scale Rulers, the Bi-location technique & Emitter. We will also revise/learn the **Turenne Rulers** for measuring resonance quantitatively.

The **Horizontal & Vertical Dial Pendulums** which today replace the Virtual Cone will be reviewed in detail, including measuring harmonious and detrimental energies, and measuring earth energy gridlines which we can do safely.

New tools addressed include the Human Archetype Ruler, the Dial, Corner Stand, Hemberg Emitter, Brain Stands Material Balancing Wheel and IKUP Pendulum.

The **Human Archetype Ruler** is the most important tool in this training. It enables you to measure BG3 energy as well the 10 chakras (the usual 7 plus 3 higher spiritual ones) in anyone or anything; measure individual components such as specific organs or body parts; make 'before & after' energy assessments of any BioGeometry work, healing, home balancing, design, Feng Shui, etc; measure on specific planes of Nature i.e. physical, etheric, astral, mental or spiritual; and so on. It can also function as a transmitter of qualities.

The **Dial** is another important tool that can be used to balance out spaces or situations with the quality of angle, including doorways, rooms, toxic surfaces, etc.

The **Brain Stands** were designed to balance the two hemispheres of the brain. We will discuss the use of the graphic form (supplied) as well as the 3D plexiglas forms.

The **Material Balancing Wheel** is a useful tool to create BG3 in a room or house, and can also be used to help harmonise people matrixes e.g. family, company, etc.

We will also address the potent **Space Harmonizer** and review the use of Hemberg Emitter and Corner Stand to help neutralize electro-magnetic and geopathic stress.

ADVANCED ENERGY QUALITY BALANCING

As always we firstly revisit and take key topics further such as **Colour Placement**; the directionality of Biosignatures; working with Biosignatures (including Dr. Karim's new information on directionality); and so on.

The BG28. If you thought BG3 is amazing (which it is) wait till you use the Bg28, a non-polarised harmonising emission for faster more powerful healing and correction of imbalances.

Repairing the Cracked Steps of our Life. We take this to deeper levels by using BioSignatures and the BG28 to heal internal energy blocks from collective matrixes and other factors beyond us, practicing this both individually and as a group. A special Biosignatures chart will be provided.

Using Qualities to balance/heal, including numbers, colours, angles, patterns and polarity.

The energy of intent and emotions. Working with how different states of mind, thoughts and emotions emit different qualities, we prove this with several interesting exercises.

We also discuss **detrimental energies** including gridlines and how to work safely with them; the deeper ramifications of electro-magnetic energies due to compression waves; entities and invasive energies; emotions and negativity; measures to avoid energy contamination; dealing with impregnation; and Dr. Karim's prayer of activating the Light within everything.

Working with **Planes of Nature.** Ancient and modern concepts of the multi-part geometry of the soul; the geometry of the Planes, shapes that resonate with each plane and how to use them; using a special chart we learn a technique of testing on which plane a problem is located or originates from; the IKUP.

Power Spots. What they are, their energy and consciousness, we learn to locate power spots also in the sky, and making a simple BG3 emitter **create a 3D grid that links earth to sky power spots** and learn how to do it with your locality.

We also work with **the Net**, a very powerful energetic technique that can be used to cleanse anything from our food to a person or an entire building.

THE THREE ESSENTIAL ADVANCED TOOLS

The three compulsory essential tools can be purchased at the course.

THE HUMAN ARCHETYPE RULER

An important step in BioGeometry was Dr. Karim's discovery of the once secret Human Archetype Code hidden in ancient Egyptian temples. A practical application that emerged from this discovery is the **Human Archetype Ruler**, a breakthrough tool of energy you will learn and use in this training.

THE DIAL

IKUP
PENDULUM

Note: Students who had trained with the Virtual Cone will also need the Horizontal & Vertical Pendulums)

NON-COMPULSORY TOOLS

These tools will also be taught in the course but only BG28 will be available for purchase. One can choose to buy the others separately later on.

BG28
PENDULUM

THE LEFT BRAIN &
RIGHT BRAIN STANDS

MATERIAL
BALANCING
WHEEL

ROOM
HARMONIZER

HEMBERG
EMITTER

TRAINING IN GREECE

Learn BioGeometry while enjoying Greece, with its superb climate, sea, food, historic and mystical culture!

Our venue will be accessible from Athens and the airport. It is possible to travel with partners or family, as they will have lots to do and see while you are at the training.

Day 7 is an optional day tour of Greek temples and sacred sites, led by Kris. This is a repeat of the tour we successfully carried out last year. There will be a nominal fee to cover expenses, and is open to all)

ADVANCED BIOGEOMETRY DESIGN

This module takes Design Principles of BioGeometry further in both concept and understanding, and present some practical new techniques that will give you more methods for producing designs or objects which emit harmonising qualities in the spaces they occupy, or to the viewer.

We address the **Forming Process of Nature**, the original template of harmonious design which the ancients sought to emulate through the use of **harmonics**; the difference between nature and man-formed structures; creating living buildings and designs; how to introduce this level of harmony into our lives and designs.

The **Harmonic Tables** are an extremely useful tool to any BioGeometry or feng shui practitioner, architect or designer as they enable one to construct any design, room, item, etc, with dimensions that emit BG3 in themselves. On the subject of numbers, we also address working with **BG numbers** up to 200 and the effects of different numbers on our body.

The **Energy Key** will be revisited, and in particular various methods of **balancing offset rooms** and other situations where the Energy Key is upset. This includes room openings, doors and windows, stairs and the principle of harmonising the energy entering a house or a room.

The BioGeometry Harmonic Scaling system; using BG3 ring emissions from vertical objects; BG3 from harmonic placement of pillars, columns and walls.

This also takes us to **working with earth energies** both in ancient and modern structures. In particular we explore power spots and their role in town planning as well as possibilities for our structures.

The Threshold Principle. This factor which was a crucial feature of all sacred rituals and traditions from ancient times till today, can dramatically enhance our results in BioGeometry and other practices when deliberately applied. We explore spatial, temporal and conceptual thresholds and how to use them to good effect in our lives and our work

Energy memory of forms. Every stroke you draw contains an invisible energetic component and memory that links it with other levels of reality; we explore the energy component of lines, circles and arcs; resonance of shapes and symbols

YOUR INSTRUCTOR

Kris Attard is a personal development teacher from Malta who has been involved in the study of ancient wisdom and holistic science for many years. He is one of the few BioGeometry Instructors in the world and the first such teacher in Europe, having trained and certified with the founder of BioGeometry, Dr Ibrahim Karim in Cairo, Egypt. Kris has been teaching since 1995 and has conducted workshops in 17 countries on intuition, sacred geometry and related subjects. His clients have ranged from public to specialised groups, including therapists, consultants and top businesses. He is also senior instructor of MindScape, a form of intuition training. Kris' training background has included gestalt psychotherapy, BodyTalk energy medicine, Feng Shui, and various spiritual and esoteric philosophies. He is the author of the MindScape Manual and is publishing exclusive research on sacred geometry and earth energies in the ancient Neolithic temples of the Maltese Islands, of which he also organises special tours.

BIOGEOMETRY ADVANCED TRAINING GREECE 2018

DATES: 22 - 27 September 2018 (+ optional sacred sites tour on 28th)

VENUE: To be announced in Athens/Vougliameni area (airport: Athens)

PRICE: €1100 for the entire training...special discount price of €995 if registered and deposit paid before end June 2018)

Price includes: all Levels 4,5,6 courses with manuals and extra handouts. The essential tools (Human Archetype Ruler, IKUP Pendulum, Dial) are not included in the price, but will be available for sale at the seminar.

Places limited, book early to avoid disappointment! Please contact Linda Giannacopoulos on +41 76 324 03 29 or linda_gianna@hotmail.com
